Introduction

This directory describes the resources of Saskatchewan libraries. The directory is a listing of the public and regional libraries, school libraries, college and university libraries and special libraries in the province of Saskatchewan. It also provides some other relevant information for library staff, such as library schools in Canada, provincial and national library associations in Canada and provincial libraries in Canada. The directory includes various indexes; libraries by name, college and university libraries, public and regional libraries, special libraries, government libraries and school libraries.

General Arrangement

The directory is divided in three sections. Section one consists of Saskatchewan libraries arranged geographically by city or town, and under each city or town, alphabetically by name. Branch libraries of city and regional libraries are listed under the library system of which they are a part. The "Libraries by name" index can be used to locate these libraries. Each entry in the directory is classified by a type of library symbol, or symbols. For an explanation see the key to the symbols on page iv. Section two consists of some general information for library staff, and section three, various indexes.

Information Details

In most cases the entry contains the following information:

- name of sponsoring organization, name of library, library symbol, address, postal code and date of establishment;
- telephone, Envoy 100 (Electronic mail), and Fax numbers;
- staff names and numbers;
- collection - number of books, periodicals, audio visual material, etc.;
- subject areas, special collections and languages;
- titles of CD-ROM materials in the collection;
- how collections can be accessed;
- automation systems;
- special services provided by the library;
- publications; and
- branch libraries.

"Open to the public" is one of the special services mentioned for some special and school libraries. This means the library will allow the general public to use the collection on the premises.

In most instances Saskatchewan libraries do not charge for the loan of monographs to other Saskatchewan libraries. Charges for other interlibrary loan services to Saskatchewan libraries are indicated where appropriate.

Under access to the collection, "Saskatchewan Union Catalogue" means the holdings are available through the Provincial Library. Also the library's serials holdings may be available through the National Library's DOBIS database. The monograph holdings for the public libraries in the Pahkisimon Nuye$_{?}$áh Library System, catalogued after November 1989 and the monograph holdings for the Regina Public Library, the Saskatoon Public Library and the Regional Libraries, catalogued after December 1979 are on the Saskatchewan Union Catalogue on Microfiche and its supplement.

Sources of Information Used

Questionnaires were sent to every library listed in the directory. The returned questionnaires were the main source for the information given in the directory. In cases where the original questionnaire or follow-up requests were unanswered, information from other sources, such as library directories, reference books and telephone directories, were used.

Provincial Library staff is grateful to all Saskatchewan libraries for their generous help in supplying information either through questionnaires or through telephone contacts, and to individuals and organizations who have assisted in the task of compiling this directory. In a compilation of this nature there are bound to be some errors and omissions which should be brought to the attention of the Provincial Library by filing Notification of Change Form which is included in your copy of the directory.

Special thanks to Shirley Plessl, Muriel Anderson and Marian Budden for the many hours devoted to "word perfect" and the typewriting of this document.

Libraries wishing to be included in this directory should contact - Ved Arora, Head, Bibliographic Services at the Provincial Library (787-2980).
